CAREER OBJECTIVE

Motivated and self-driven B.Tech graduate in Electrical & Electronics Engineering with a strong interest in Cloud Computing, AWS, and DevOps practices. Hands-on knowledge of tools like Linux, Git, Docker, Jenkins, and basic AWS services. Passionate about learning automation and cloud infrastructure, and looking for an entry-level opportunity to grow as a DevOps/Cloud professional while supporting modern deployment and infrastructure solutions.

TECHNICAL SKILLS

Cloud Platforms
Amazon Web Services (AWS – EC2, S3, RDS, IAM, CloudWatch, VPC)

DevOps & CI/CD
Git, GitHub, Docker, Kubernetes (Basics), Jenkins, Terraform

Monitoring & Logging
AWS CloudWatch

Operating Systems
Linux (Ubuntu, CentOS)

Version Control & Collaboration
Git, GitHub

Soft Skills
Problem-solving, Collaboration, Adaptability, Continuous Learning

Scripting
Bash

PROJECTS

AWS Cloud Project - Hosting a Website on EC2
- Launched and configured an EC2 instance in AWS.
- Installed and configured Apache2 web server on Ubuntu.
- Deployed a static website and tested public accessibility.

Version Control with Git & GitHub
- Managed projects code using git repositories with GitHub integration.
- Practiced branching, merging, and collaborative development.
- Implemented version control best practices to streamline team workflows

Docker Mini Project
- Created a custom Docker image using a Dockerfile for a simple web application.
- Tagged the image and published it to Docker Hub for seamless distribution.
- Ran and tested the container locally, ensuring successful deployment on port 8080

EDUCATION

B.Tech - Electrical and Electronics Engineering 2022 – 2025
Audisankara College of Engineering and Technology Gudur
CGPA: 7.72

Diploma- Electrical and Electronics Engineering 2019 – 2022
Loyola Polythechincal College Pulivendula
Percentage 72.09

SSC
ZP High School Thondur
GPA 8.2
